

high-quality Leading provider of chemicals. masterbatches and specialty Since entering the plastics industry in 2022, Fortrade Trading DMCC has rapidly established itself as a leading provider of high-guality masterbatches and specialty chemicals, partnering with Global well-known and certified suppliers to meet customers' requirements. As a subsidiary of the FADEL GROUP, we have driven significant growth and market expansion, with a strong focus on innovation and customer satisfaction. Fortrade Trading DMCC - plastics division is serving customers across various sectors worldwide, particularly in the GCC and African regions.

Our commitment to excellence is evident in our extensive product range, which includes a wide variety of masterbatches designed to enhance the performance, color, and functionality of plastic materials.

Our Mission

Fortrade Trading DMCC is dedicated to driving sustainable growth in the plastics market. We strive to deliver exceptional value to our customers through leveraging our expertise, passion, and teamwork.

Our Vision

To be a leading global provider of high-quality products, recognized for our commitment to customer satisfaction.

Our Product Range

Comprehensive range of masterbatches, additives and resins.

Elevate your plastic products with Fortrade's masterbatches and additives. From vibrant colors and enhanced performance to functional properties and sustainability, our solutions cater to diverse industries, from packaging and automotive to construction and electronics.

Why choose FORTRADE?

Quality and Innovation: Our products are crafted using the latest technologies and highest quality materials.

Customization: We offer tailored solutions to meet your specific requirements.

Sustainability: We are committed to providing sustainable and environmentally friendly products. *Expert Support:* Our team of experts is dedicated to providing excellent customer service.

Explore our product range today and experience the difference.

MB WHITE

Discover our premium MB WHITE, crafted with high-purity titanium dioxide for exceptional whiteness, dispersion, and opacity. With over 500 formulations and pigment loadings up to 75%, our MB WHITE products are ideal for a wide range of applications, from commodity plastics to specialty materials.

MB BLACK

Enhance your plastic products with our high-performance MB BLACK. Our extensive range of over 1,000 formulations achieves consistency and offers flexible pigment loading options (10-50%), making MB BLACK suitable for diverse applications, including food and non-food packaging, agriculture, non-woven materials, and pipes.

MB COLOR

Unleash the power of color with our COLOR masterbatches, we offer custom color solutions tailored to your specific needs.

MB ADDITIVE

Optimize your plastic products with our functional ADDITIVE masterbatches, to enhance performance and durability. From slip and anti-block agents to UV protection and moisture absorption, our additives are designed to improve processing efficiency and deliver superior end-product results.

PLASTIC RESINS

Explore our diverse selection of high-quality plastic resins, including polyethylene, polypropylene, PVC, polystyrene, and PET. These versatile materials offer unique properties and are widely used in packaging, construction, automotive, electronics, and countless other industries.

Key Application Areas

Packing & Packaging

Beverages

Create visually appealing and functional beverage packaging with our masterbatches and additives.

Food Packaging

Ensure food safety and extend shelf life with our hygienic and durable packaging solutions.

Detergents

Improve the performance and stability of detergent packaging with our additives.

General Packaging

Protect and preserve products with our versatile packaging materials.

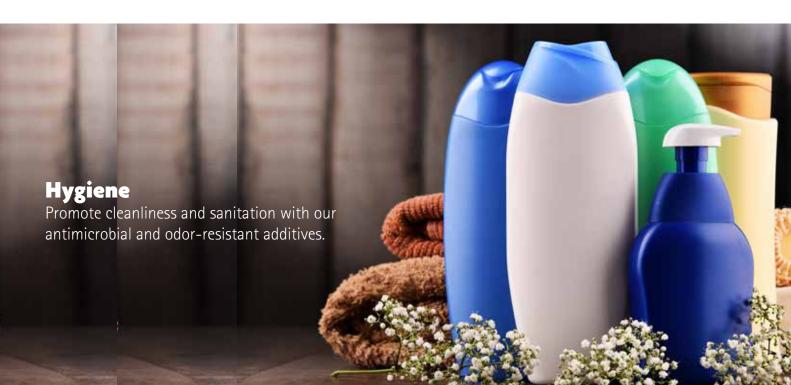

Cosmetics

Enhance the appearance and functionality of cosmetic packaging with our colorants and additives.

Chemicals

Ensure safe and effective packaging for chemicals with our durable and resistant materials.

Construction

Tanks

Create strong and reliable tanks with our reinforced plastic materials.

Pipes

Enhance the durability and longevity of pipes with our corrosion-resistant additives.

Geomembranes

Protect infrastructure and prevent soil erosion with our high-performance geomembrane materials.

Profiles

Improve the aesthetics and functionality of profiles with our colorants and additives.

15

Agriculture

Greenhouses

Create optimal growing environments for crops with our UV-resistant and durable greenhouse materials.

Mulch Film

Protect crops and retain moisture with our high-quality mulch film

Irrigation Pipes & Accessories

Ensure efficient water distribution with our durable and reliable irrigation systems.

Fibers & Textiles

Ropes

Enhance the strength and durability of ropes with our additives.

Raffia

Create strong and durable raffia bags with our reinforced materials.

Non-Woven

Produce high-quality non-woven fabrics with our functional additives and masterbatches.

Household Disposables & Others

Dining Items

Enhance the appearance and durability of dining items with our colorants and additives.

Household Items

Improve the functionality and aesthetics of household items with our masterbatches and additives.

Sports Equipments Improve the performance and durability of sports equipment with our functional additives and masterbatches

Mats

Create durable and comfortable mats with our reinforced materials.

Toys

Ensure safety and durability in toy products with our non-toxic and high-quality materials. Discover how *Fortrade trading DMCC* innovative solutions can elevate your products across these diverse industries.

Our Global Reach

Our strategic partnerships in KSA, China, Vietnam, India, Greece and Turkey have enabled us to expand our market reach to a diverse range of countries across the Middle East, Africa, and Asia. Our global network allows us to effectively serve customers in these regions, providing them with innovative solutions that meet their specific needs.
